

Asia's climate is out of control

- let biodiversity help

亚洲的气候已然失控

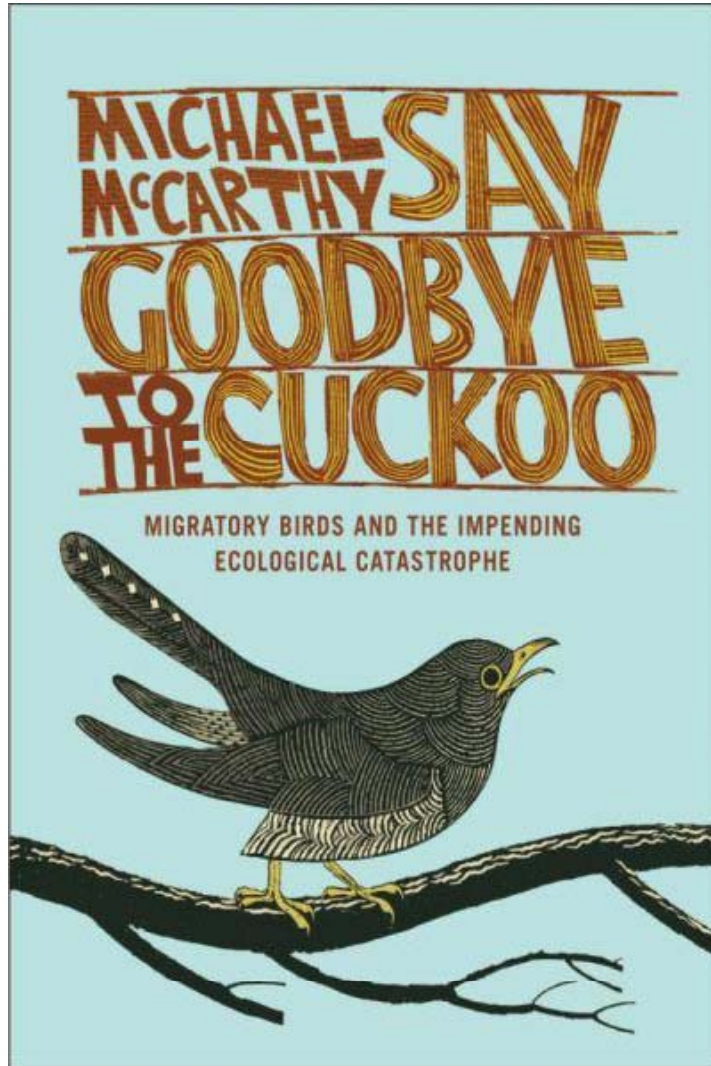

——让生物多样性来帮忙

John MacKinnon, ECBP

马敬能@中国-欧盟生物多样性项目

Impending Ecological Catastrophe

迫在眉睫的生态大灾难

Ecological services collapsing

生态服务日趋崩溃

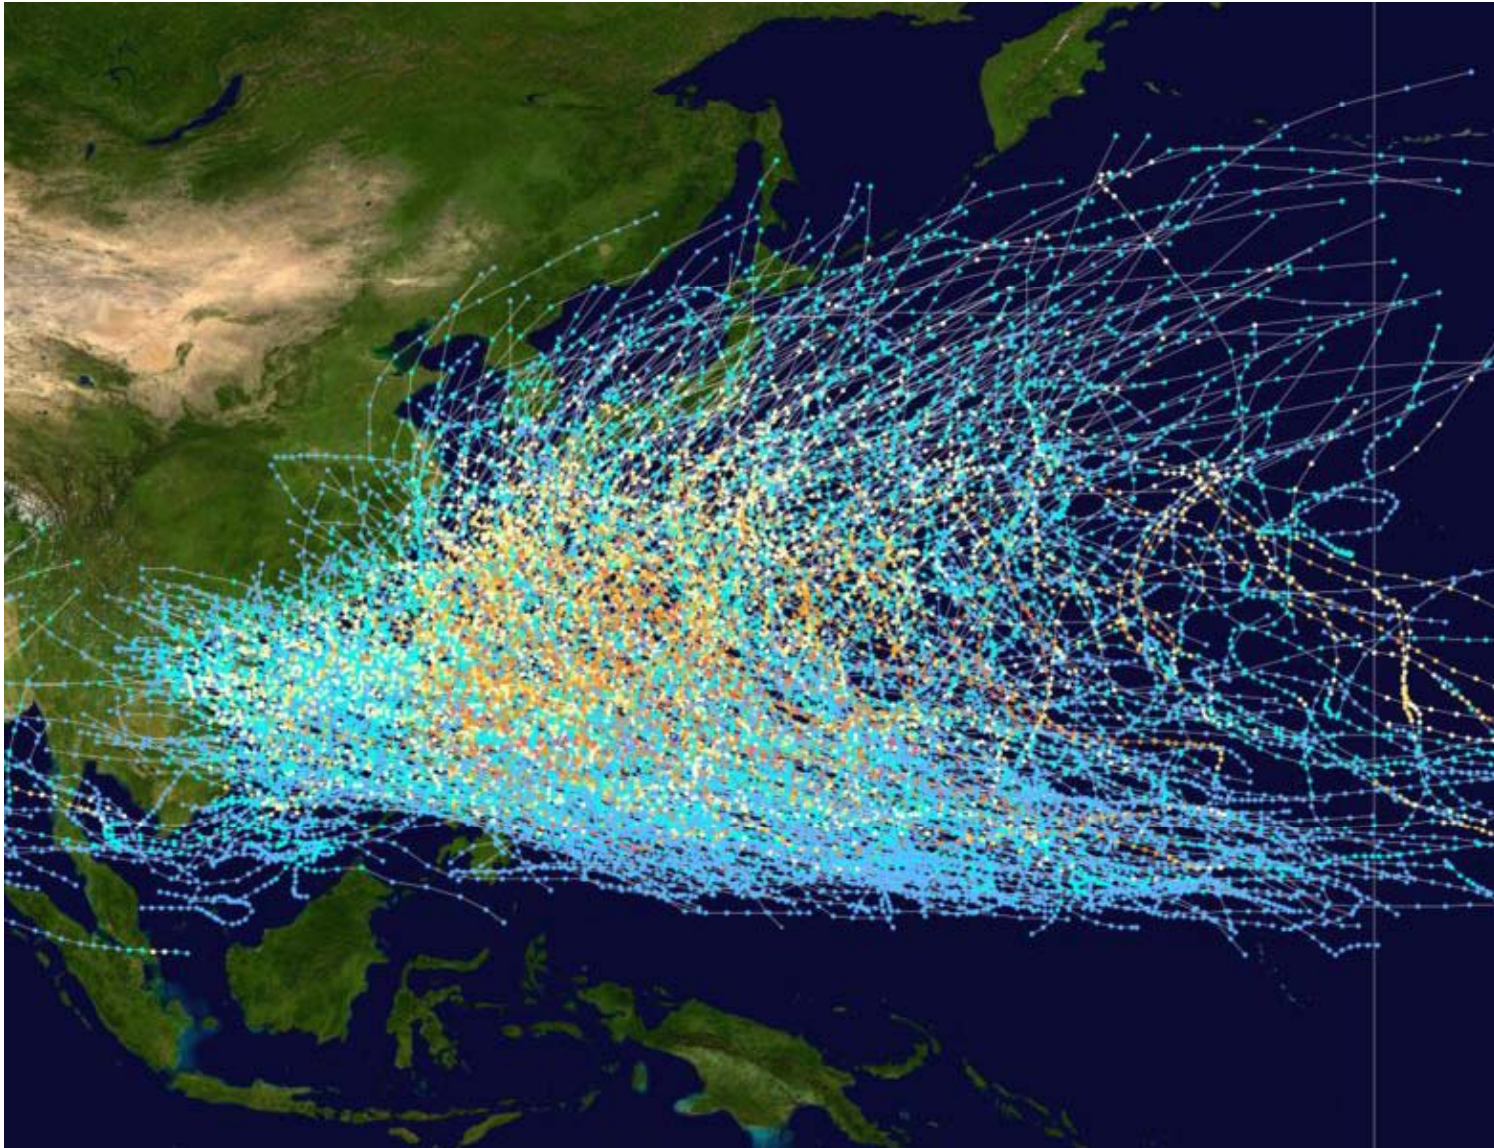

The real costs of development

发展的真正代价

Asia's climate is out of control

亚洲的气候在失控中

End of the Ice Age

冰河时代的结束

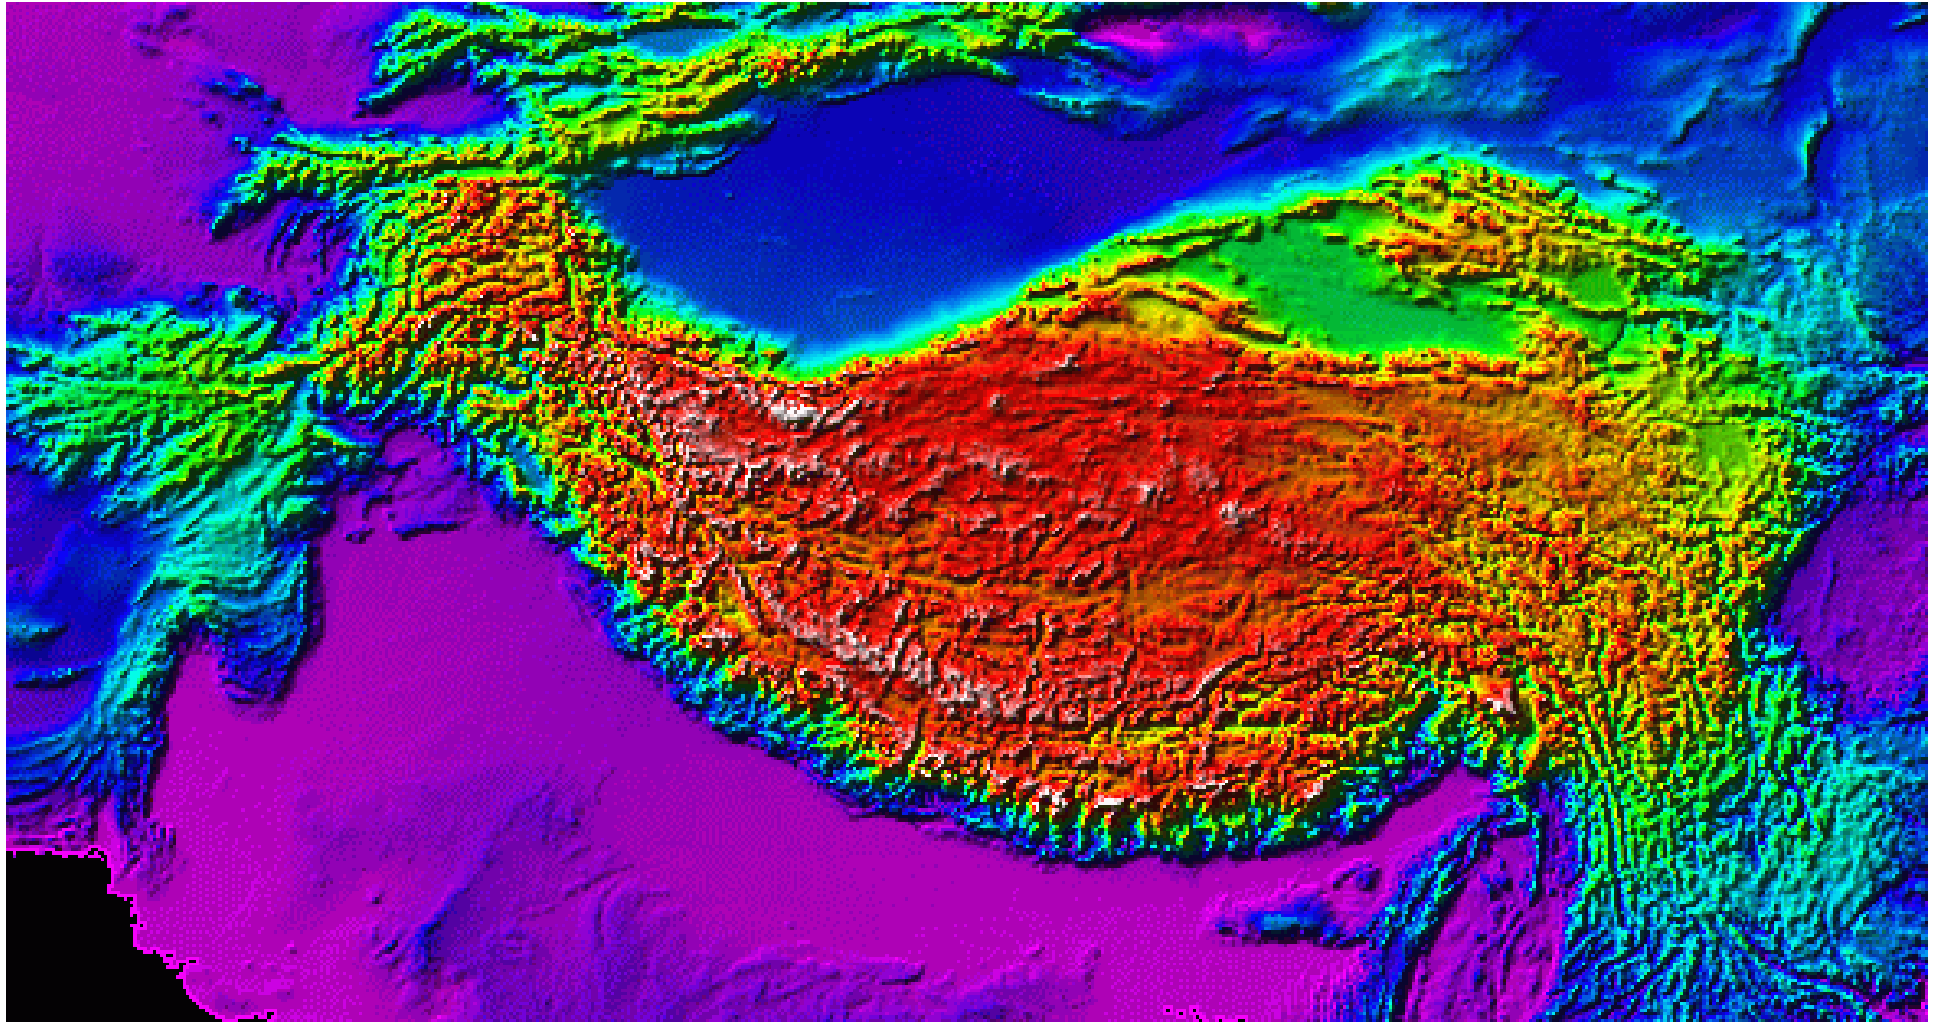

A plateau of Ice 高原冰河

Radiator to oven

从热量反射体到热量接收体

Source of sacred rivers

圣河的源头

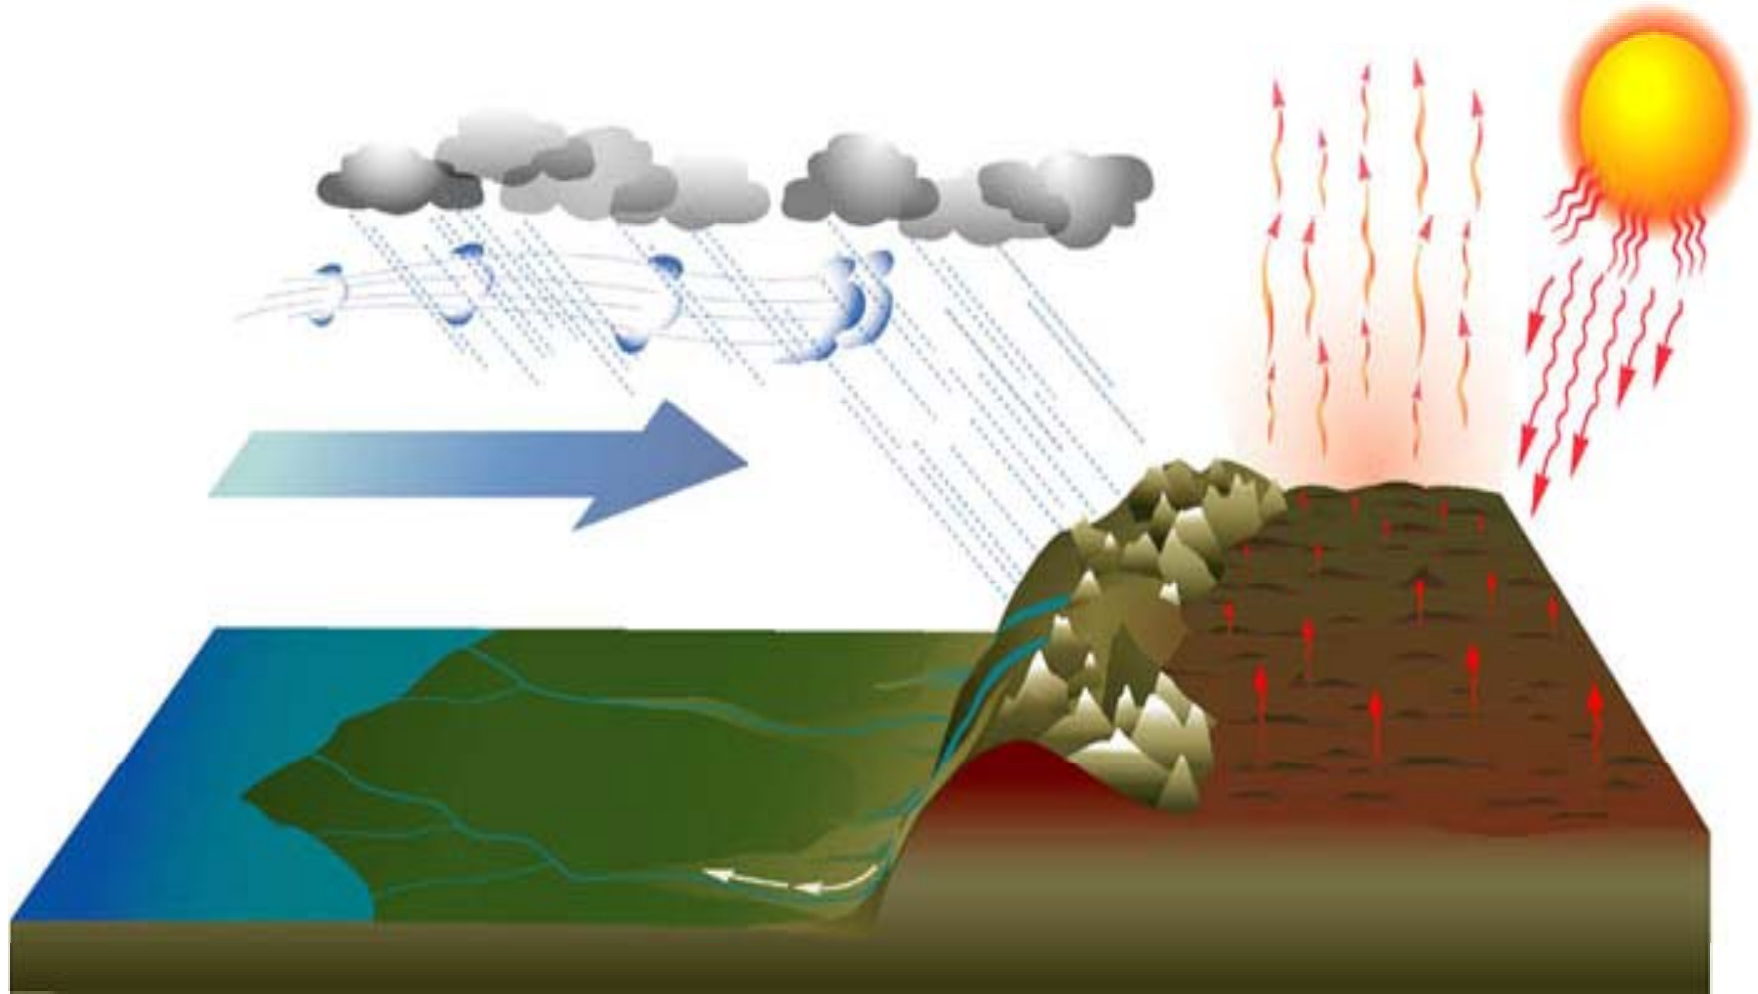

The last of the glaciers

最后的冰川

High pressure, low pressure
高压，低压

Farms that feed half of humanity

农田喂养了地球上半数的人类

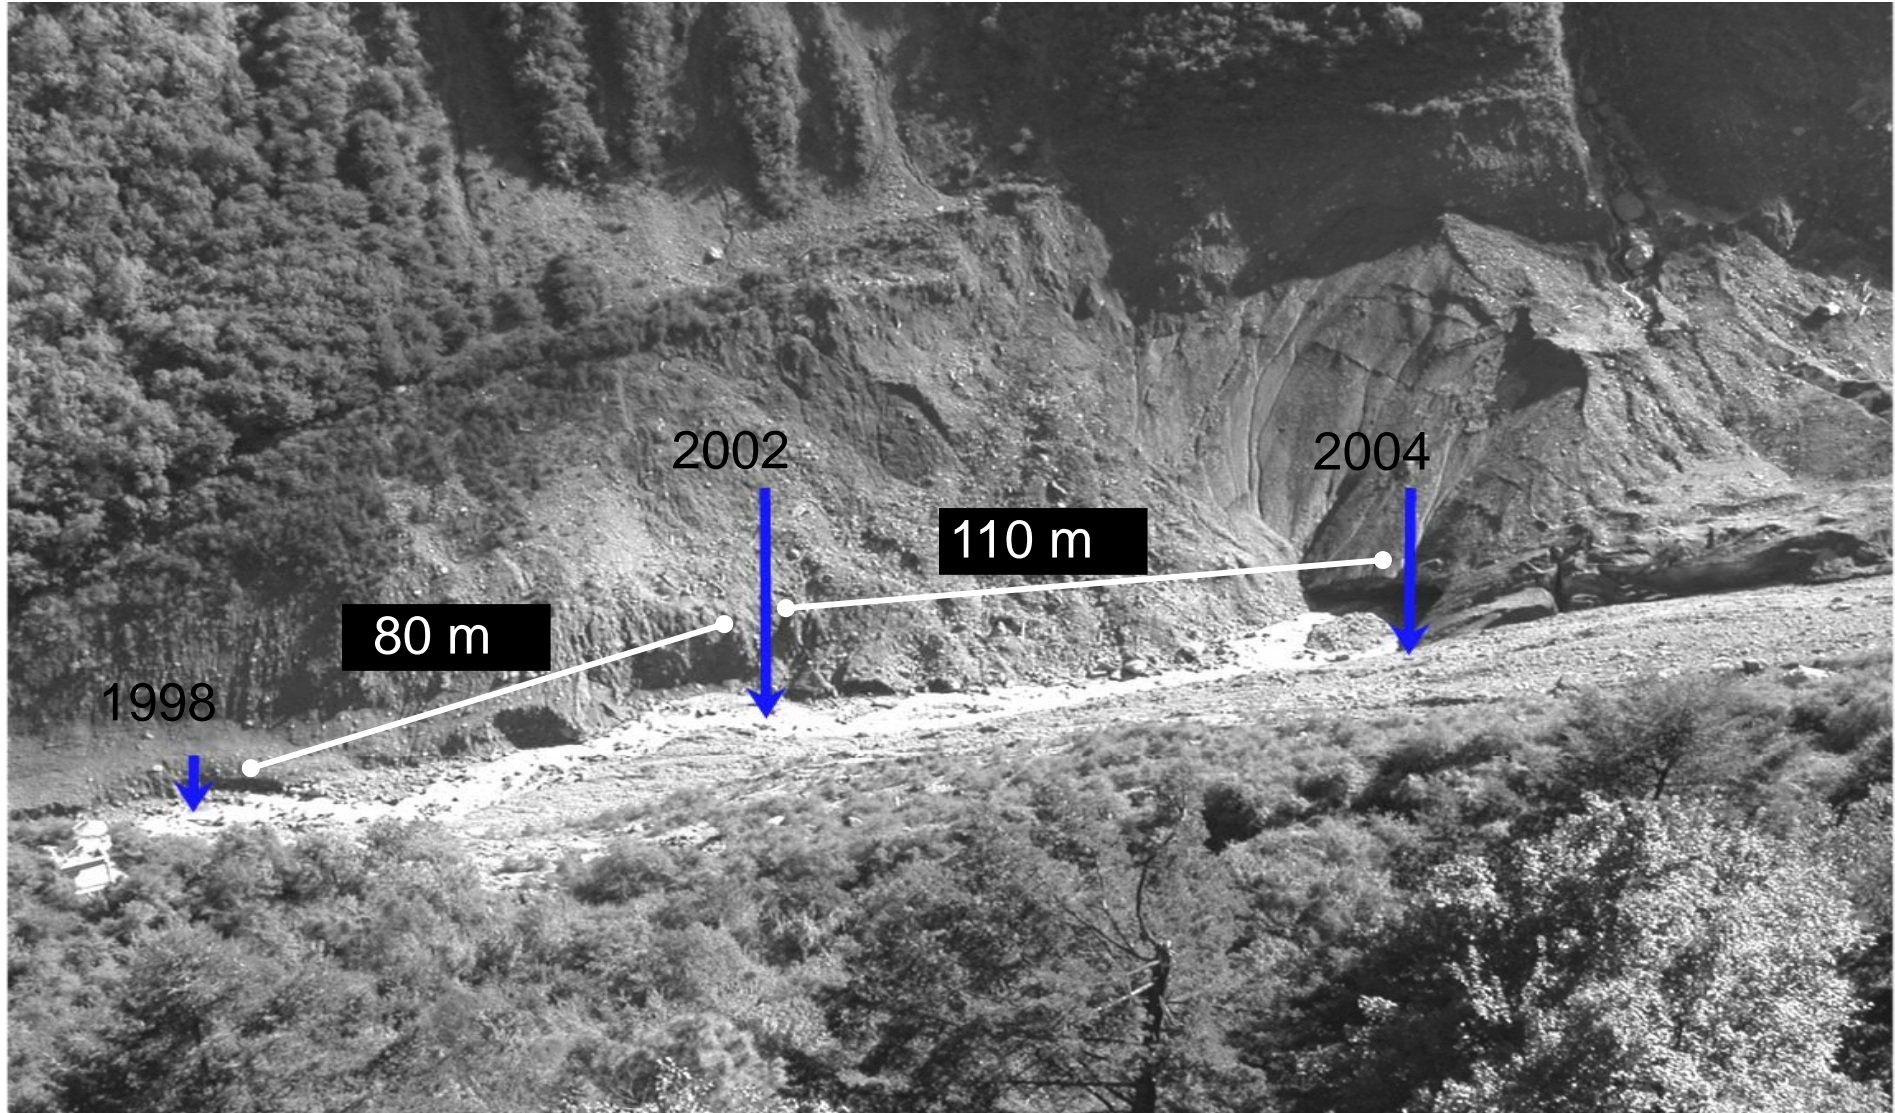

Alpine natural paradise

高山上的天堂

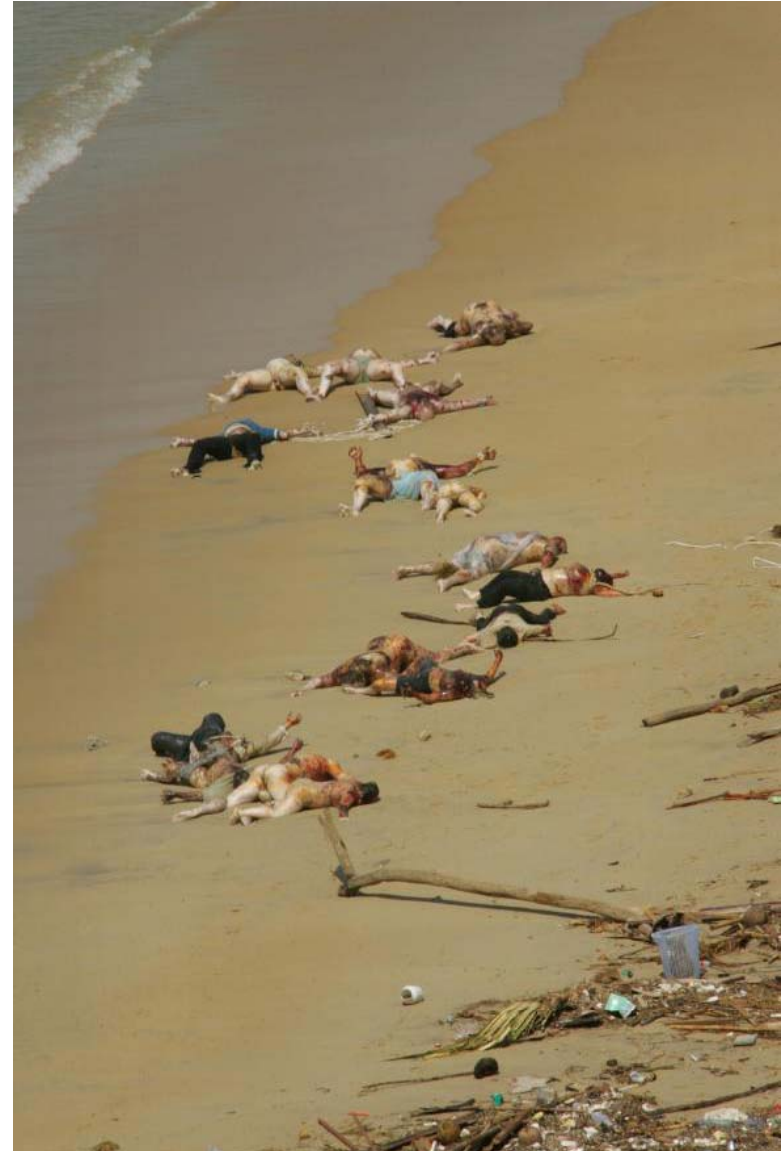

Glacial retreat 冰川线后撤

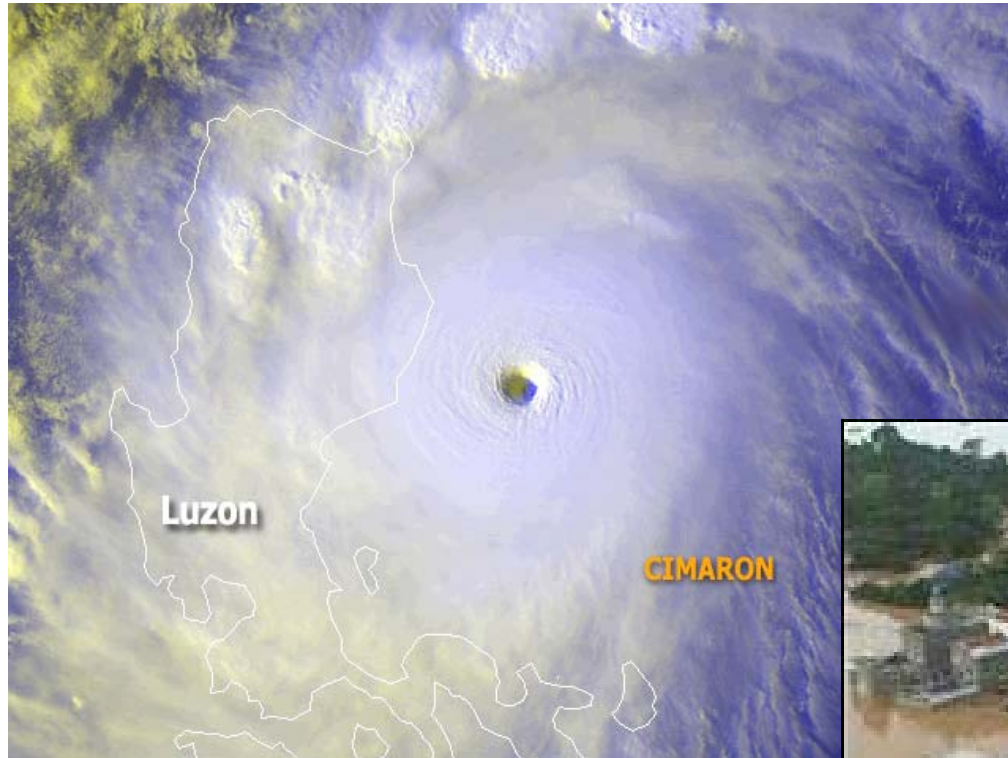

The cost of the floods

洪水的代价

Gathering of storms

风暴聚集

Typhoons rising in strength and frequency with global warming

台风的强度与频率皆随着全球暖化而日益增加

More than 20 typhoons per year now lash East Asia

每年超过**20**起台风袭击东亚地区

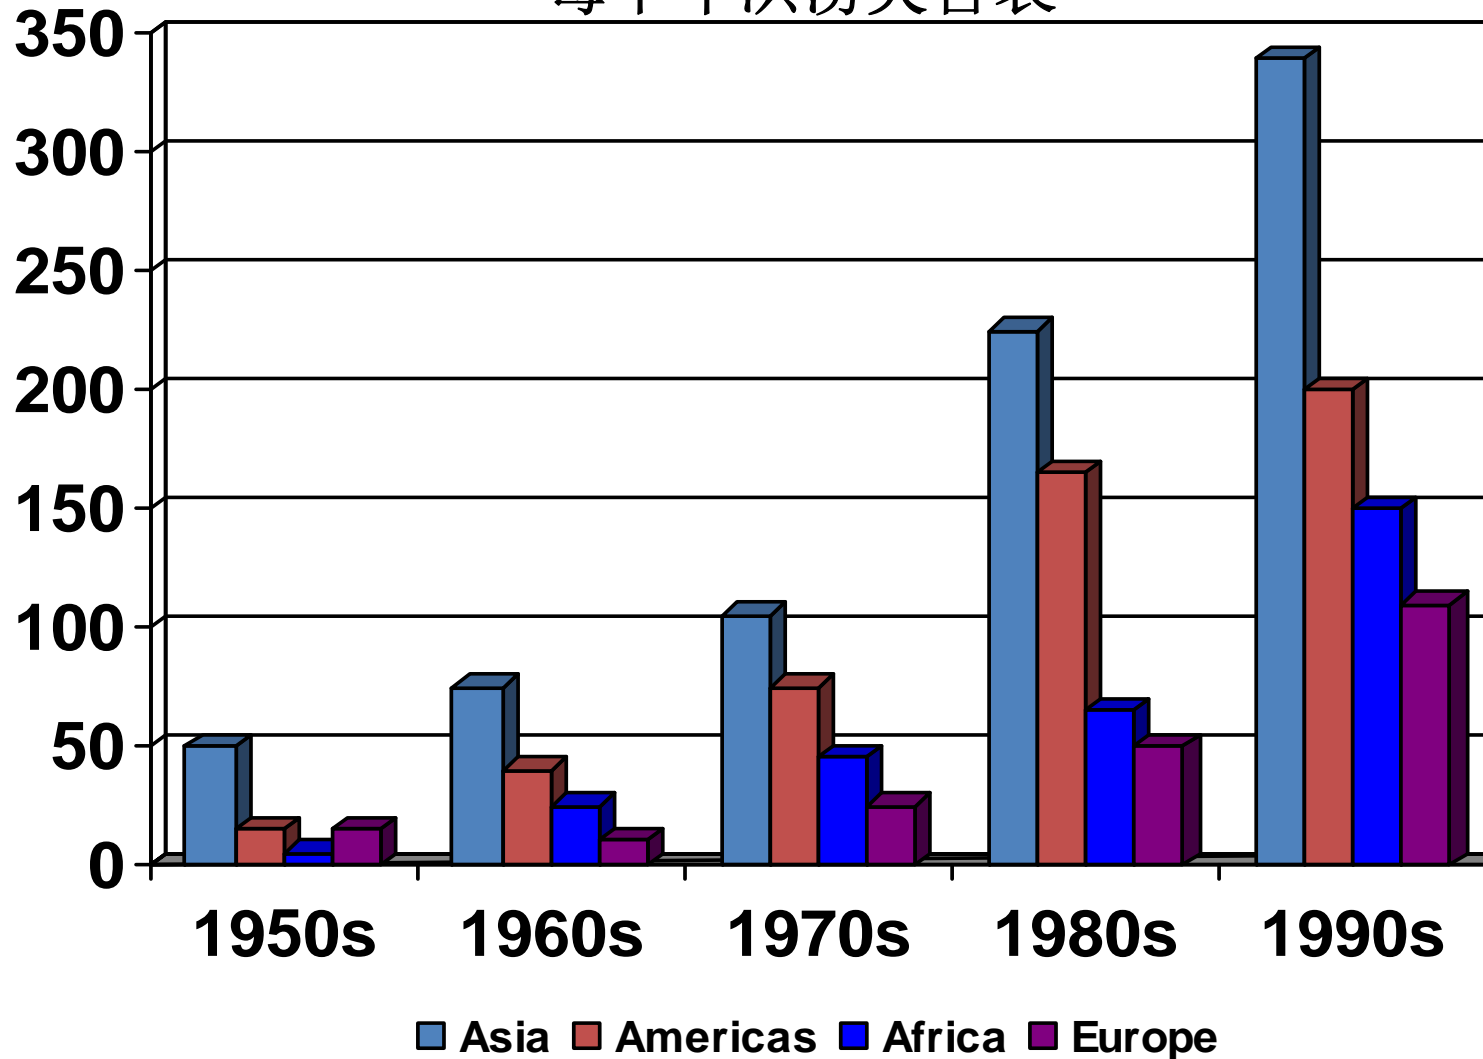

Advance of the treeline

树木线在前移

Exponential Flood events per decade

每十年洪涝灾害表

Source: Millennium Ecosystem Assessment

Tragedy of landslides 山体滑坡带来的杯具

Ground cover and albedo

地面植被覆盖物与反射率

Hasty engineering 草率的施工

Protected Areas

自然保护区

中国自然保护区体系
Nature Reserve System in China

Keystone pikas

起着基石作用的鼠兔

The pressing issue

紧迫的议题

Need for biodiversity mainstreaming

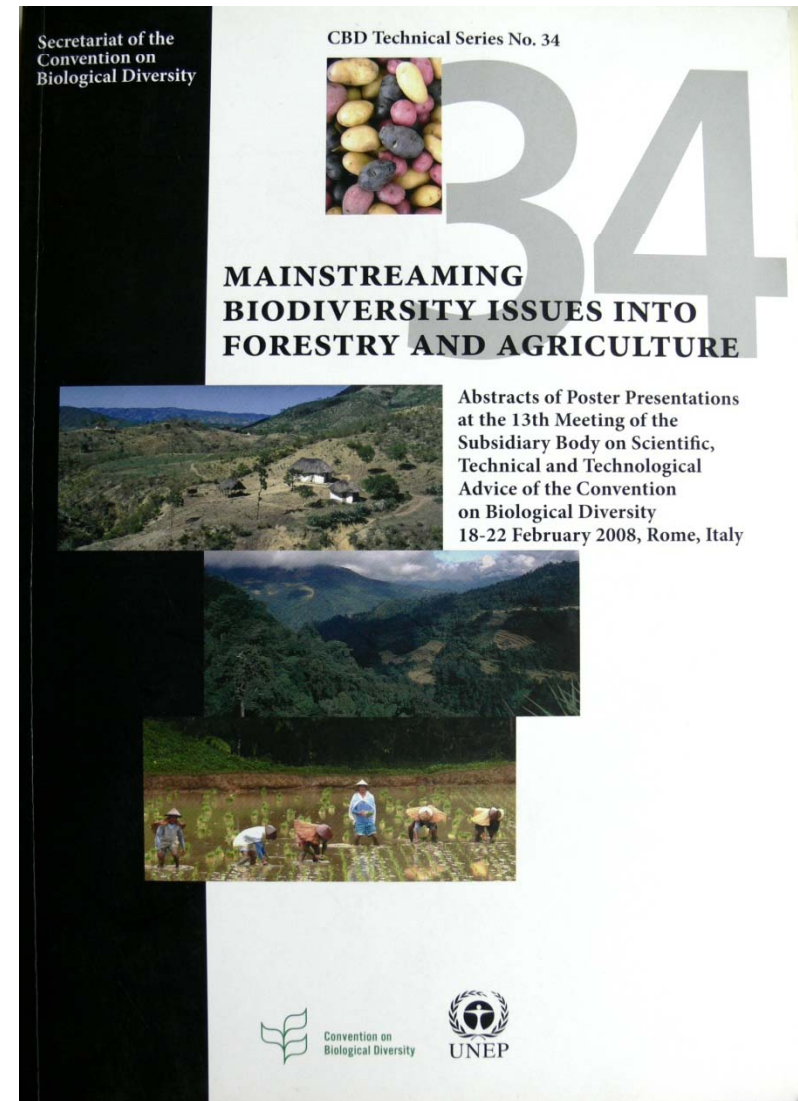

将生物多样性主流化的迫切需要

**China Council for International Cooperation on
Environment and Development**

**MAINSTREAMING BIODIVERSITY INTO
CHINA'S GREEN DEVELOPMENT**

Background Paper for AGM 2010

Thank you !!
谢谢大家！！
